DIMENSIONS AND WEIGHT

Width	2200	mm
Length	8600	mm
Height	3400	mm
Weight	14150	kg

ALTERNATOR		
Description	STAMFORD	
Alternator model	S7L1D-C	
P.R.P. Power	1550.0	kVA
E.P. Power	1660.0	kVA
Connection	Star	
Phases	3FN	
Winding	312	
Terminal Number	6	nr.
IP Protection	23	
Electronic regulator	MX341	
Precision	1.0	± %
BASEFRAME		
Model	ST60	
Standard tank	0	I
Optional tank	0	I
Oversized tank*	0	I

CANOFI & SIEENCER				
Canopy model	C60/11			
Silencer model	MSR/a 200			
Silencer outlet diameter	219.0 mm			

ture 25°C, altitude 100m asl, relative humidity 30%. ar), power factor 0.8 lag, balanced load - non nal and refers to specific weight 0,850kg/l. Sound ons: the installation site may influence the values. cations contained in the technical data sheet and ct to tolerances and refer to the model with standard onal equipment/accessories can modify weight, **ne Power-Continuous power at variable load:** ontinuous service at a variable load for an unlimited cting the maintenance intervals established in the Manufacturer. according to ISO8528-1. The average power supplied over time and any applicable overload must be less than the percentages stated by the Manufacturer. **E.P. - Emergency power:** This is the maximum power that a generating set can deliver for a limited number of hours per year while complying with the maintenance frequency stipulated under the environmental conditions set by the Manufacturer. The number of hours per year is determined by the engine manufacturer. The average power output over time must be lower than the percentages set by the engine manufacturer. Overloading is not allowed.

The data contained in this document is nominal and refers to the standard equipped model and is not binding. Visa S.p.A. reserves the right to revise the information without notice per our policy of continuous product development and improvement.
